

# High-Volume Low-Speed Fans

Whether you're a farmer trying to increase milk production or a restaurant owner looking to maintain a quiet and pleasant dining experience, HVLS fans can be applied to businesses and buildings of all shapes and sizes.

- Reduce heat stress on your employees and increase productivity.
- Ideal for revitalized buildings that lack modern insulation standards.
- Effective way to reduce indoor humidity, bacteria and mold.
- One HVLS fan circulates the same amount of air as multiple conventional fans.

**Note:** This offer applies to new fans in an unconditioned space only.
