Celebrate your energy-saving accomplishments

Let's celebrate! Your school, your students and you have worked extremely hard this year on your energy-saving journey. Now is the time to recognize those who worked the hardest and shine a light on those who were most involved in helping the TVA EnergyRight School Uplift Program at your school to be successful.

Visit EnergyRight.com/business-industry/school-uplift/resources and scroll towards the bottom of the page. You will find a section labeled "Brightest Moments." The resources are downloadable for you to build out presentations or fliers by selecting only certain slides to use. The PowerPoint presentations are already available in co-branded format with your local power company (LPC).

Celebration activities could include using the following resources:

Certificates of participation for students:

- Energy Team Member
- Energy Team Lead
- Energy Efficiency Guru
- Energy Monster

Certificates of participation for students:

- Energy Team Member
- Energy Team Lead
- Energy Efficiency Guru
- Energy Monster

These certificates are available on the EnergyRight.com/business-industry/school-uplift/resources page so that you are able to customize them to meet your needs.
